Klutsh Pinstripe delivers nervous, hypnotic rock, at times on the verge of tipping into unpredictable and heavy mayhem. Their music blends trance-like grooves with crushing riffs, exploring sin, desire, collapse, and renewal in soundscapes that are both raw and immersive. Dark, intense, and relentlessly hypnotic, it draws listeners into a world where pleasure, danger, and transcendence collide.

Born in the French Alps the band's influences take root in a broad landscape of rock genres, ranging from 1960s/1970s British invaders and psychedelic Californian rock, to the heavy desert rock of the 2000s.

The band lineup consists of:

JJ on the bass, bitar and backs  
Yann on rhythm guitar and backs  
Clems on drums  
Jseb on lead guitar and vocals
